

ALLQUIP

WATER TRUCKS

— Fibreglass Tanks —

✓ WALL BAFFLED

Fully baffled with internal walls to control liquid surge and sway when vehicle is in motion.

✓ TANK CAPACITY

Standard tank module sizes: from 7,000Lt to 15,000Lt.

✓ WARRANTY

10-year manufacturer's guarantee.

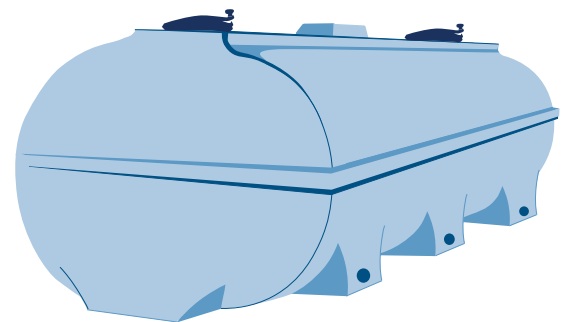

The fibreglass tanks used by Allquip are manufactured by an Australian company with over 40 years' experience.

- Tank mounted to galvanised steel sub-frame for ultimate rust protection.
- Sectional drains in all compartments for automatic self-draining.
- Chemical residues are easily flushed out.
- Heat reflecting white gelcoat finish ensures that the tank's internal temperatures are kept to a minimum.
- Black internal linings provide a light-tight water tank, preventing algae growth and chemical degradation.
- 3D CAD design and Trailer WIN software is utilised to ensure the tank is optimised for your specific vehicle.

Australian made for Australian conditions.
